Experience

Horizon Systems And Solutions - (Remote)

01/2023- Current

Software Developer

- Collaborate with a team of developers and QA professionals to enhance and maintain web application for multiple insurance companies
- Proficiently break down user stories into detailed tasks, providing clarity and guidance for development process
- Utilize version control systems to organize and submit code for review
- Actively participate in sprint planning meetings, providing input on project timelines and resource allocation
- Demonstrate strong problem-solving skills, troubleshooting and resolving software defects in a timely manner
- Contribute to the overall improvement of the development workflow through the implementation of efficient coding practices and tool
- Policy Data Conversion project - Developed a console application handling the transfer of policies between insurance companies, tailored for seamless integration into the existing systems internal activities. This application efficiently processed multiple files containing policy data. Initially parsing the information into temporary SQL tables and further transforming them into tables closely aligned with the recipient company's data structure. This facilitated the seamless issuance of policies, optimizing the data migration process for enhanced operational efficiency.

Full Stack Web Development Certificate

2022

devCodeCamp

- 14 week, project based coding bootcamp building real-world full stack applications
- Utilized JavaScript for algorithm development, coding, debugging and building of functions and graphical user interface applications

Planet Fitness - Newark, DE

02/2021- 12/2022

Manager

- Complete daily balance sheets ranging from \$10-300
- Manage all inventory, including tanning products, cleaning supplies, beverages, etc.
- Oversee 12+ employees and daily operations

United States Marine Corps Sergeant

11/2012 - 09/2016

Combat Engineer – Camp Pendleton, CA

- Tool room manager assigned to maintain storehouse inventory equipment with an estimated value over \$2M
- Monthly inventory of 22 tool kits and 41 bridge pallets
- Plan and execute the construction of 140 foot Bailey bridge, 30 foot wooden bridge as well as multiple Medium Girder bridges and construction projects ranging from concrete to vertical structures
- Effectively work as a fire team leader and later as a squad leader displaying skills to lead, counsel, and motivate 8+ persons to work as a team in order to quickly and effectively accomplish tasks
- Deployment to Afghanistan to facilitate the decommission of Camp Leatherneck
